CHOICE IRISES

GROWN AT

Sunnyside Gardens NATICK, MASS.

TELEPHONE 1559-J

SUNNYSIDE GARDENS

Are located on both sides of Harvard Street Extension, and No. 3 Sawin Street (residence). Take North Avenue, at North Main Street, and turn left into Sawin Street. Visitors are welcome any day in the week. I grow more than 500 varieties of the best modern kinds, including a great many of the recent novelties of merit, and several hundred seedlings of my own raising.

POSTAGE

Postage will be paid on all orders amounting to \$2.00 or more, except as otherwise noted. Orders for less than \$1.00 are not accepted. 10% discount allowed on orders amounting to \$25 or more. We begin shipping the middle of July and up to the first of September. To Southern States and the West Coast until late October.

SUBSTITUTES

Late orders should include a list of substitutes in case some varieties are sold out. Otherwise your money will be returned for varieties out of stock.

JOIN THE AMERICAN IRIS SOCIETY

You will receive four Bulletins each year, chock full of Iris interest, all for \$3.00. Send your remittance to B. Y. Morrison, 821 Washington Loan and Trust Co. Building, Washington, D. C.

BRONZE MEDAL

The Bronze Medal of the Massachusetts Horticultural Society was presented to L. Merton Gage, for his Sunnyside Gardens Collection of Irises, in Boston, June 8th, 1932.

This and That About Irises

Concerning Sunnyside Gardens' Introductions for 1936

For this year I am offering in my list of NEW INTRODUCTIONS two beautiful reds, CHRISTA-BEL, from Mr. E. G. Lapham, and RED COMET, from Mr. W. J. McKee. Both of these Irises are considered a great advance in the red color section by competent judges of the American Iris Society. In McKee's "MONOMOY" we have one of the richest colored deep blue Irises we have seen. Of my own introductions I am offering this year, I would say that all have been very popular with visitors in my garden last season.

SPARTACUS is a very rich-colored variegata on the order of "Neon"; fine shaped flowers and a profuse bloomer. TARASCA, with its rich, dark Brown standards and Violet Carmine falls, blooms very freely and is a good, strong plant. SIL-VANUS is a most striking blend of Old Gold and light Violet, with a narrow edging of brown all around the lower petals. Unusual and beautiful.

Additions to my list of recent introductions earnestly recommended are Ishpanee, Lily Pons, Shining Waters, Winneshiek, Neon, Wonder-Child, Oriana.

SHIPPING

None but fully matured and blooming-size roots, properly dried out before packing, are sent out. Fresh dug roots, packed too soon after digging, are liable to sweat in transit, if the weather is hot, especially if they are packed in a tightly-closed box with no ventilation. The rhizome then becomes soft, followed by rot, soon after planting. (Holes are always punched in the box to give free circulation of air). Always examine the rhizomes soon as received, and if they are not firm and hard return at once to the dealer you purchased them from.

CULTURAL DIRECTIONS

Tall bearded Iris should never be planted in a location where water settles, and the melting snows of late winter form a coating of ice over the beds.

If your garden is in a low place, build up the beds six or eight inches, and be sure that the drainage is adequate to allow water to go down through the soil freely.

Do not plant too deep, but so that the rhizome is just below the surface. Spread out the roots and water the hole. Then draw the earth around the rhizome and firm well, and do not water again unless there is a continued dry spell.

If the soil is heavy and drainage is poor, white (coal) ashes will lighten it, and the clinkers may be placed in the bottom of the bed, about 18 inches down for drainage. Do not use the red ashes if white are obtainable. There is a lime element in the white ashes that is absent in the red, and this seems to be just the right chemical compound that is beneficial to many plants, Irises in particular. Use freely. Well-rotted manure may be safely used, if it does not come in contact with the rhizomes.

There is no fixed rule as to how often Irises should be divided. Varieties that increase rapidly should be divided and reset every third year, some perhaps every second year, but Irises that increase slowly will sometimes do well for five years without being disturbed.

BORERS AND ROOT ROT

Borers and root rot seem to be the important things that one has to contend with. I find that eternal vigilance will keep them both in check. Watch the foliage, beginning the first of July, or earlier in some sections, and where you see a leaf that looks slimy or the edges notched, look out for borers, and get an old glove and squeeze the leaf up and down between thumb and finger.

I have found the preparation Cupro-Jabonite the most effective remedy for checking root rot. It is manufactured by the Geo. C. Gordon Chemical Company, 1408 West 9th, Kansas City, Mo. Send them \$1.00 and they will send you one pound post paid.

If you raise seeds of Iris, you will know that the flowers have to be bagged soon after pollinating, to prevent the verbena fly from stinging their eggs into the new-forming seed pod, where they hatch out little larvae (Maggots), that eat up all of the young seeds. The scars on the pods where they have been stung are plainly discernible, when fully developed, and if scraped with a sharp pen knife and a little Calogreen rubbed into the wound, that will be the finish of Mr. Maggot. It is said that Calogreen is also effective for preventing rot, but for treating seed pods I believe ordinary calomel would be just as effective. This treatment does away with bagging.

TALL BEARDED IRIS

Sunnyside Gardens' Introductions

FOR 1936

MONOMOY—(McKee-Gage, 1936). A large, very Deep Blue Purple with rich, velvety falls. Blooms of good form and substance, standards domed. Falls semi-flaring, deep Blue beard. Hardy and a profuse bloomer. (Originator's description), H. M., A. I. S., 1934.....\$10.00

RED COMET—(McKee-Gage, 1936). "A large, deep coppery red with mahogany undertone. The blooms are fine form and good substance, the standards domed. The semi-flaring falls are well rounded and of lustrous deep velvet. The branched styles are lit up by a gold beard. Very profuse bloomer, and blooms are placed on a well branched 40-inch stalk." Red Comet is one of the finest Irises I have seen, similar in coloring to Numa Roumestan, but a much superior Iris in every respect. Honorable Mention, A. I. S., 1935\$20.00

SILVANUS—(Gage, 1936). Standards arching cupped; Old Gold at base blending to Saccardo's Violet. Falls obcordate, reflexed Saccardo's Violet with soft brown venations; narrow edging of brown all around the lower segments. Slightly fragrant; late. 37 inches\$5.00

SPARTACUS—(Gage, 1936). Standards arching cupped, Old Gold; Falls obovate, Violet Carmine, Brown venations; Golden Orange beard; heavy substance; slightly fragrant. A late bloomer. 34 inches tall\$5.00

TARASCA—(Gage, 1936). Standards Dark Brown, arching cupped; Falls Violet Carmine, obcordate, hanging; heavy substance and fine texture; slightly fragrant. Golden Orange beard. Blooms over a long period. 33 to 36 inches tall. \$3.00

1935 INTRODUCTIONS

- MARY LEE DONAHUE—(Gage, 1935), (W. R. Dykes x Primrose). A pure deep Golden Yellow self. Large flowers that bloom from midseason to late. Standards arching, cupped. Falls broad, drooping, flaring. Brilliant orange beard. Eight judges rated it 95. Height 30 inches. H. M., 1933. Withdrawn for propagation.
- ROSY WINGS—(Gage, 1935), (Dauntless x mixed pollen). Standards domed, arched, overlapping. Circular, oval. Brownish Vinaceous at edge, shading to daphne Pink in center. Falls drooping, flaring. Brownish Vinaceous at edge, deepening through Daphne Pink to Deep Helebore Red in center of blade. Conspicuous orange beard. The stalk is erect with three well-balanced branches. The color effect, as seen across the garden, is a soft, but clear, light brown. The carrying quality is particularly good for a blend. The judges gave this Iris the highest rating, Class A. Growth vigorous. Fragrant. Height 40 inches. H. M., A. I. S., 1934............25.00

1934 INTRODUCTIONS

- LADY GAGE—(Gage). Parentage lost. Medium size flowers of good substance. When the flowers open they are flushed delicate lilac-pink, and fade out to pure white the next day. Very free flowering, and increases rapidly. A most satisfactory garden white; midseason. 30 inches, \$2.00
- JERRY—(Lapham, 1934). This is the most brilliant red Iris that I have seen. Good size, well-rounded ruby red flowers; firm stalk; well-branched. Medium to late. 36 inches....\$3.50

1933 INTRODUCTIONS

fine form and substance on well-placed, tall, graceful stalks. Wax yellow overlaid with pink, blending into a bright orange color effect. Bright orange beard. Good size flowers and free blooming. Medium to late. Height, 36-38 inches\$2.00

GLORIOLE—(Gage, 1933). A light blue self
Overlaid with a glistening frosty chaom ((The
flowers are exceedingly large, beautifully formed with slightly flaring falls and perfortly domed standards that he have
formed with slightly flaring falls and ner-
fectly domed standards, the heavy substance,
fine finish and texture of the flowers enable them
to withstand wind, rain and heat. A wonderful
flower of brilliant sheen and great beauty. The
flower stalks are very tall and well branched,
bearing many blooms, which last over a long
period of time." H. M., A. I. S., 1933. A. M.,
A. I. S., 1935. Height 42 inches\$12.00
NORMA GAGE—(Gage, 1933). A lovely little
pink and white intermediate with medium size
flowers of good substance and free test
flowers of good substance and fine texture.
Very free flowering. Quite distinct from other
pink and white Irises. Midseason\$2.50
PURPLE GIANT—(Gage, 1933). Enormous dark
blue-purple flowers. 32 inches\$3.00
RED BEAUTY—(Gage, 1933). Standards Dark
Vinaceous Purple. Falls Hav's Margon, bril-
liant orange beard. Medium size flowers of fine
form, substance and texture. Height 28-30
inches\$2.00
SNOWCREST—(Gage, 1932). Sib. This is similar
In color to Snow Queen, of which it is a seedling
but it is taller and freer flowering. Height 38
inches\$2.00
φ2.00

A Select List of Recent Introductions

ABELARD—(H. Sass, 1934). S. Deep Livid
Brown; F. Veronia Purple; well branched; 26
inches\$1.50
ASHTORETH—(Beau., 1932). Clear, pale yel-
low, of heavy texture and smooth finish. A
beautiful mass in the garden. 36 inches. H. M.,
A. I. S., 1930\$2.00
BLUE JUNE—(Donahue), (Gage, 1934). A blu-
ish lavender self. A Sensation seedling of Santa
Barbara type, but blooming two weeks earlier
than Sensation. Drooping-flaring falls, golden
beard and very fragrant. 40 inches. H. M., A.
I. S., 1933\$15.00
BROWN BETTY—43 inch. A distinctively NEW
color tone, introduced in 1934. A changeable-
silk effect in a blending of Mikado Brown, Prus-
sian Red and Argyle Purple, giving a startling
changeable brown-blend effect. Nothing else
like it\$6.00
BURNING BRONZE—40 inches. One of the finest
1934 introductions; Deep Red with an intense
Bronze suffusion. H. M., A. I. S., 1933\$10.00
CHEERIO—(Ayres, 1934). S. dull gold with
bright red flush F. a glowing velvety red, and
brilliant yellow beard. The flowers are well
formed and hold their color well. Plant strong
and vigorous. "A flame in the garden." 40
inches\$12.50

- ELEANOR ROOSEVELT—(Sass-McDade, 1933). Awarded the Hutchinson Gold Medal as the best Fall Blooming Iris of 1933. It is a fluorite purple self with very rich falls; free blooming; an unusually reliable repeater. It bloomed continuously more than a month in the spring and three full months in the fall. Hardy; increases rapidly. The outstanding Fall Bloomer....75c
- ETHEL PECKHAM—(Wmsn., 1932). Large, perfectly formed flowers of a wonderful Brilliant Red. One of the best of the Reds yet produced. Very fragrant. H. M., A. I. S., 1932,
- ETHELWYN DUBUAR—(Lapham, 1933). The largest of the pinks. Enormous medium dark pink flowers with prominent orange beard. I can thoroughly recommend this Iris. 36 inches.\$1.50
- imperial blush—(H. P. Sass, 1933). A beautiful large Blush Pink with 40-inch branching stems; finest pink to date; much larger than Pink Satin. Strongly recommended. H. M., A. I. S., 1933...........\$3.00
- ishpanee—(Washington, 1934). Standards are yellow, well domed and arched; falls are Yellow with brilliant patch of Red in center of each fall; styles and beard are intense yellow, the falls are very horizontal. The stalks are well branched. A glowing Iris of most unusual form and color combination. 40 inches.....\$7.50
- ITASCA—(Kleinsorge, 1934). A vivid deep amethyst self without veining. Flowers are rounded in shape, of silk-like texture, with nicely branched stalk. 30 to 36 inches high....\$12.00
- JEAN CAYEUX—(Cayeux). Beautiful blending of havana or coffee brown, with golden glint. Considered one of the very finest Iris ever imported from France\$8.00
- JEB STUART (Washington, 1932, Nesmith, 1932). This Iris equals Mary Geddes in beauty and charm. The color of the flower is a deep, rich brownish red with some influence of copper in the tone. A deep orange beard. S. are domed and do not open; F. are extremely velvety. Strong, heavy, well-branched stems; good seed parent. 40 inches. A. M., 1935. Net...\$6.00
- JERRY—(Lapham, 1934). This is the most brilliant red Iris that I have seen. Good size, well-rounded ruby red flowers; firm stalk; well branched. Medium to late. 36 inches....\$3.50

 JOYCETTE—(J. Sass, 1932). A remarkable Iris
- JOYCETTE—(J. Sass, 1932). A remarkable Iris of rich Red tones; pronounced by many the finest Red Iris to date. Excellent form and substance; many flowers on tall, lowly branched stalks. H. M., A. I. S., 1932................\$5.00
- KALINGA—(Kleinsorge, 1934). Huge cream self, outstanding both as exhibition and garden specimen. Twelve to fifteen flowers to a stalk; finely branched and well placed. 45 inches....\$6.00

- MISSOURI—(Grint., 1933). One of the exceptionally fine new Blue-Lavenders. The falls are broad and flaring, velvety in texture. Substance of the flower is unusually good, and it is a profuse bloomer. 44 inches. H. M., A. I. S., 1933; A. M., A. I. S., 1935...........\$4.00
- NATIVIDAD—(M. M., 1932). A warm-toned white, almost creamy; delightfully lighted by the clear Yellow of the beard and center. 36 inches\$2.50
- NEON—(Salb., 1934). S. Bronzy Gold; falls velvety Carmine. "Makes other variegatas look pale and wan." 48 inches.....\$7.50
- PRAIRIE ROSE—(Egelberg, 1934). Caprice X Iris King. Larger and better substance than Wild Rose, more Pink than Rheingauperle. Good sized flower of bright, fresh color with an unusual changeable play of silvery high lights and deeper Pink shadows. Firm substance, high branching stems reaching 3 feet.....\$5.00
- ROBERT—(Ayres-Emig, 1933). S. pale Amber, with a Tan overcast; F. same, with a pale Blue flush at the center. Flowers are large and of exceptionally fine substance. 36 inches..\$7.50
- SHINING WATERS—(Essig, 1933). A reflection of clear blue western skies in still, shining waters. The firm, wax-like texture is enhanced by a bright Orange beard. It combines the the smoothness and finish of Hoogiana with the size and poise of Easter Morn. Well recommended. 50 inches. H. M., A. I. S., 1934; A. M., A. I. S., 1935......\$2.00
- SIERRA BLUE—(Essig, 1932). An exceptionally smooth, refined flower of very clear soft blue, with good substance. 36 inches. H. M., A. I. S., 1933. Dykes Medal, 1935.....\$3.00
- SPOKAN—(J. Sass., 1933). "The most brilliant of the Red-Browns." The falls have a Black-Brown overlay on Oxblood Red. Beard is a bright Orange. Stems well-branched. 36 inches..\$10.00

SUMMER TAN—(Kirkland, 1935). M. 38 inches.
This is an unusual Golden Tan blend. Its color
is suggested by its name. S. light Golden Tan.
F. slightly darker, flushed Olive with a velvety
finish. Of rare coloring and vigorous and hardy,
\$5.00
TENAYA—(Essig, 1933). Blackish Red-Purple, with iridescent lights. Tall, showy and well
branched. 36 inches\$2.00
VALOR—(Nich., 1932). An outstandingly tall
and large deep Violet-Blue, blooming very late.
The falls have Crimson lights at certain times.
46 inches. H. M., A. I. S., 1932\$1.50
VENUS DE MILO-(Ayres, 1931). Dominion
seedling of clear White with bright Yellow
beard. Flowers of heavy substance and fine
texture; strongly recommended. 42 inches. H.
M., A. I. S., 1932; A. M., 1935\$1.00
WOTAN—(Grint., 1932). This very rich dark Purple self has the velvety texture of the falls extending into the throat. 30 inches\$6.00
Purple self has the velvety texture of the falls
was a Toll (The arms 1007) Bush all and a least
WASATCH—(Thorup, 1935). Probably the largest plicata to date. The plicata marking is most
pronounced in the bud, and the open flower has
no dark brown or other markings, which has
marred the beauty of some of our best plicatas.
S. broad and arching F. broad and straight and
slightly flared at the bottom. The blooms are
of heavy substance and not affected by wind
and burning sun. Well placed on a stem which
is in proportion to their large size\$12.50
WONDER-CHILD—(National, 1933). Standards
Red-Violet; falls Blue Violet, suffused Red, edges lighter. Light Gold beard. Brown and White
markings at base. Six or more bloosoms to a 40-
inch well branched stalk\$10.00

A General List of Choice Irises

BLACK WINGS—(Kirk). The blackest Iris; Dominion form; very velvety deep blue purple; intensely fragrant; midseason; medium height, A. M., A. I. S., 1933\$1.50
BLUE HILL—(H. P. Sass, 1931). One of the finest blue Irises of slightly deeper tone than Sensation, but a larger flower, carried on tall, well branched stems. H. M., A. I. S., 1932. 38 inches
BLUE VELVET—(Loomis, 1929). A clear, velvery dark blue. 42 inches. A. M60c
BRANGAENE—(Mor., 1928; Sturt., 1930). A large, red-copper blend with flaring falls of blackish-red purple; widely branched and vigorous. 30 inches
BUECHLEY'S GIANT—(Buechley-Gage, 1933). This is described as the largest, and best formed large Iris yet produced; a very beautiful light blue flower, similar in color to Lord of June. Stalks are nicely branched \$1.00
CLARA NOYES—(H. P. Sass). Blend of yellow, orange and apricot; midseason; medium. H. M., A. I. S., 1931\$1.00
coronation—(Moore, 1927). Rich, deep golden yellow; nearly four feet tall on well-branched stalks. This is one of the best yellow Irises ever introduced. 36 inches
DAUNTLESS—(Connell, 1929). This is the sensational red Iris that was awarded the Dykes Medal, in 1929. 38 inches
DEPUTE NOMBLOT—(Cay, 1930). S. Mallow Purple, shaded old gold; F. pansy purple, tinted lighter at edge. Deep orange beard. 52 inches tall, on splendidly branched stalks75c
DESERT GOLD—(Kirk., 1930). One of the largest yellows. Bright, clear tone; early and fragrant. 30 inches. H. M., 193160c
purple, a brilliant work of color. Tall and well branched\$1.00
DOROTHY DIETZ—(Wmsn., 1929). S. light chicory blue. F. pansy violet. Very large flower. 36 inches
EASTER MORN—(Essig, 1932). A wonderful white Iris of especially good form and substance, with excellent domed standards and very flaring falls. Strongly recommended. H. M., A. I. S., 1931; A. M., A. I. S., 1933. 48 inches\$2.00
ELIZABETH EGELBERG—(Egl., 1929). Mauve flushed pink. Orange beard. 48 inches25c
ELOISE LAPHAM—(Lap., 1932). Milk white flushed pink. Falls heavily shaded pink. 3 to 5 branching with 10 good size blooms. Free bloomer and rapid increaser. 30-34 inches. H. M., A. I. S., 193260c
GILEAD—(And., 1931). Golden toned, of deep buff, overlaid with amber. 42 inches. H. M A. I. S., 1932
GOLDEN HARVEST—(J. Sass, 1930). A fine, deep vellow A fall bloomer 75c

GRACE STURTEVANT—(Bliss, 1926). S. dark red-brown; F. deep violet-carmine. Deep orange beard. 36 inches50c
HENRI RIVIERE—(Mil., 1927). S. pure lemon yellow; F. lilac-mauve and yellow edge. Late. 42 inches
HERMITAGE—(Kirk, 1931). A red blend of rosy tan and crimson; S. show a gold edge, the second day. 36 inches. H. M., A. I. S., 1930\$1.00
HERNANI—(Cay., 1929). S. coppery rose flushed red; F. velvety garnet red; a very red effect; handsome. 38 inches50c
JEANETTE MAY KENNEDY—(Keller, 1931). S. large and finely ruffled pink; F. flaring, deep velvety red to blackish purple, bordered pink. Splendidly branched and marvelous substance. Very free blooming. 38 inches\$1.00
KING JUBA—(H. P. Sass). Large flowered gold and maroon variegata. H. M., A. I. S., 1932.75c
KING MIDAS—(Mead, 1929). Golden buff and garnet-brown. Golden orange beard. Very fine. 28 inches50c
KING TUT—(H. Sass, 1926). S. Cacao brown.
F. Hessian brown. Red effect. 30 inches30c LADY LUCK—(Donahue, 1930), (E. M., 1930).
A rich shade of deep dark purple. Very free, and fine in a mass
LARGO—(Ash., 1931). Blending of yellow shades, brown and mauve. 36 inches\$1.00
LINDBERGH—(Arbuckle, 1928). S. light violet; F. deep pansy violet
LODESTAR—(Hall, 1925). S. lemon chrome; F.
velvety claret brown with a lemon chrome border. We know of no other variegata as distinct as this one. 36 inches50c
LOS ANGELES—(Mohr-Mich., 1927). Giant white flowers, edged pale blue75c
LUX—(Cayeux, 1931). S. brilliant old gold suffused bright apricot. F. semi-flaring, pucy rose faintly tinged carmine with a golden glint; beard orange yellow; strong branching stems, 3 feet. Certificate of Merit, S. N. H. F\$2.50
MAGENTA-(Cay., 1927), (L. M. 36). A deep
clear toned amethyst violet self. Flowers of good form and size. Combines well with creamy yellows
M. A. PORTER—(Lap., 1931). The standards are close to Gaudichau; the falls much darker. Rich orange beard. 34 inches60c
MARY ELIZABETH—(Kirk., 1929). S. reddish violet; F. Dahlia purple. 38 inches50c
MARY GEDDES—(Wash., 1931). S. salmon; F. same color overlaid with Pompian red. 40 inches
MELCHIOR—(Wallace, 1927). S. bronzy violet; F. rich crimson-purple. Golden beard. 36 inches
MELDORIC—(Ayres, 1930). Rich blue-black flowers of colossal size. H. M., A. I. S., 1931. 40 inches

MIDGARD—(H. Sass, 1926). A beautiful blend of pink and yellow. 36 inches25c
MOA—(Bliss, 1919). S. pure violet; very smooth, deep violet. 42 inches
MOON MAGIC—(Shull, 1931). A light yellow self, of heavy substance. 36 inches. H. M., A. I. S., 1932
MORNING GLORY—(Kirk, 1929). A better and larger Morning Splendor. 40 inches75c
MRS. VALERIE WEST—(Bliss, 1925). S. bronze flushed reddish lavender; F. velvety wine-purple. 40 inches
MY MARYLAND—(Sheets, 1931). S. petunia violet; F. deep amaranth purple, overlaid garnet brown. 34 inches
NANOOK—(Ayres, 1932). Creamy white with amber on edges and some coppery-yellow venations on haft. 44 inches50c
NEPENTHE—(Conn., 1927). S. soft lavender buff; F. flushed lavender-pink. 30 inches. H. M., A. I. S., 1932
NEWTONIA—(Donahue, 1930), (M. 40). A pink amber blend50c
NO-WE-TA—(H. Sass, 1932), (M. 32). A true pink self with yellow flushes in the center and on the edges of standards and falls. A pinker Midgard\$1.50
PEACHES—(H. Sass, 1932). Large flowers of peach, apricot and orange tones. 36 inches, 60c
PERSIA—(Ayres, 1929). S. taupe or smoky heliothrope; F. blue-purple, shading reddish at edges. Lovely in its quiet, yet rich colors. 42 inches, \$1.00
PICADOR—(Mor., '28). A large variegata. S. Mustard Yellow. F. Mineral Red to Dahlia Purple. 40 inches
PINK JADU—(Sturtevant). One of the most delicate Iris in the garden. A plicata having a suffusion of lavender pink that makes this the pinkest plicata in the garden. Medium size. Small roots
PINK SATIN—(J. Sass, 1930). Almost a true pink. 40 inches\$1.00 PLUIE D'OR—(Cay., 1928). Deep chrome to cadmium yellow. Dykes Medal, 1928. 38
cadmium yellow. Dykes Medal, 1928. 38
inches
inches
inches

RASAKURA—(Will., 1930). A bright rose red.
32 inches
RED DOMINION—(Ayres). Velvety blood red of perfect form; it has no pollen, but will set seed; midseason; tall\$2.50
RED ORCHID—(J. Sass, 1934). A beautiful violet carmine intermediate, with dark yellow beard. 28 inches\$1.00
ROB ROY—(Kirkland, 1931). This fine Iris is of great value because it is such an early bloomer, being the first big red to show color in our garden. Dominating color is bordeaux, a color of great carrying quality. Texture excellent, and does not fade\$1.00
RONDA—A new American introduction and one of the brighter reds so far originated. 30 inches\$1.75
rose colored self; strong, well-branched stems; Standards arched; Falls flaring and of deep velvet; beard distinctly golden yellow. Large flowers; a splendid and vigorous Iris. H. M., A. I. S., 1932\$1.50
ROSY GLOW—(Emigholz, 1935). S. domed, heavily flushed Bishop's Violet. F. straight, hanging broad; Ivory White, broadly edged and faintly stippled violet purple. Yellow beard. Garden effect deep rosy plicata. Early midseason. 28 inches
ROYAL BEAUTY—(McKee, 1932). S. intense medium blue; F. slightly deeper in tone, exceptionally velvety. Flowers are large and fine, on widely branched stems. A. M., A. I. S., 1932, \$1.50
SAN FRANCISCO—(Mohr-Mich., 1927). Large white flowers, edged lavender. 44 inches60c
SELENE—(Conn., 1931). Very large, silvery white. Heavy texture. 40 inches. H. M., A. I. S., 1932
SENLAC—(Bliss, 1929). Almost a claret red self. A very large Dominion. 40 inches\$1.00
spring MAID—(Loomis, 1932). A beautiful warm, creamy pink. Tall, with well-formed blooms. H. M., A. I. S., 1932\$1.50
TALISMAN—(Murrell). One of the finest small Iris grown. A blend of apricot, yellow, and pinkish shades that is most unusual. Standards yellow with rosy pink veining at tips. Falls rosy lavender pink with yellow reticuations. Gold haft. 20 inches\$1.50
THURATUS—(H. Sass, 1930). A large, black purple self. 38 inches
TUSCANY GOLD—(Wmsn., 1929). A reddish gold blend. 36 inches
der on light pinkish cinnamon ground color. Good size and form. Spicy scent. Extra fine. 30 inches
WACONDA—(H. Sass, 1931). A dahlia purple self. Very large flowers. 38 inches35c

WAMBLISKA—(J. Sass, 1931). Very large,
white flowers, with a light blue undertone. Orange beard. 36 inches

IRIS SIBIRICA

These dainty and fairy-like Irises are very hardy and bloom in profusion in partial shade or in the sun, but prefer a moist location, and a fairly rich soil. The flowers are of medium size on tall, graceful stems.

Do not plant Siberian Irises in dry or sloping ground. They like moist, but not too wet soil, and should be planted a little deeper than tall bearded Irises; the crowns ¾ inches below surface, and should be watered occasionally during a dry spell. BLUE CHARM—(Sass, 1931). Large, intense blue; tall\$1.00

BLUE RIDGE—(Cleve., 1929). Silvery light blue with turqoise midrib. Late. 34 inches.75c
